

## Video Interview 1: Peter Tepe

Video: Riad Nassar, [Till Bödeker](#) | [Video Interview](#)

*Summary: The first w/k video interview was shot during a visit at Peter Tepe's atelier – on the occasion of his post in German w/k Science-related: Four New Series.*

### **Preface to the republication of the video**

The German version of the article [Science-related: four new series](#) was published on 16 December 2019: Riad Nassar's [Videointerview 1: Peter Tepe](#) was made in reference to it. However, since it took several months to complete, it was published on 10 December 2020 – almost a year later. The long gap between the two publications was not favourable for an adequate reception, since the video *follows on from the article*: it is difficult to fully understand the content of the film if one hasn't read the article or doesn't have the accompanying images in mind. On its own, the video is not fully convincing, as Brigitte Boothe's comment shows.

The publication of [Science-related: four new series](#) now, for the first time, opens up the possibility of creating the conditions for an adequate reception – by *republishing* the video, which also comes with an English text, right after the English version of the article.

The video language is German, but the video has English subtitles. These can be opened by clicking on the gear wheel in the video menu and selecting *Subtitles: English*.
