

ZERO Interviews

Section: [Interviews](#)

Summary: This series of interviews took place at the Zero Foundation as part of the project „each grows stronger when nourished by the other“ (György Kepes). The participating artists talk about their own art, their relationship to science and their connection to the ZERO artists. The title of the project is Sehen, Hören und Fühlen – Phänomene in Natur, Wissenschaft und Kunst (Seeing, hearing and feeling – phenomena in nature, science and art); it is a cooperation of the ZERO foundation, Düsseldorf, with the MIT Museum Studio and the Compton Gallery of the Massachusetts Institute of Technology in Cambridge, MA, USA, as well as the Kunstakademie Düsseldorf. The project is sponsored by the Ministry of Culture and Science of North Rhine-Westphalia and the E.ON Stiftung gGmbH. All ZERO interviews first appeared on the [ZERO foundation](#) website and are republished here.
